

We are excited to introduce a brand-new innovation to the market – **Hypno**, a line of pouches that redefines energy and focus. The Hypno Energy line delivers a powerful boost – each pouch contains 100 mg of caffeine, giving your body and mind an instant surge whenever you need it most.

For those who want more than just caffeine, there's **Hypno Nootropic** – combining caffeine with a unique, energizing blend of Alpha GPC, taurine, L-theanine, vitamins B6 and B12, ginseng, and guarana, designed to support memory, focus, and long-lasting mental performance.

***Hypno is freshness, energy,
and focus in a convenient pouch
– try it and feel the difference!***
